

Goose Creek Landing Inc.

Board of Directors Meeting – Conference Call – 02 June 2020

The meeting was called to order at 4PM. In attendance were Louis Clark, Don Mitchell, Woody Woodard, Earl Bunting, Mary Ann Everett, Don Gray and Phyllis Pennington.

1. Primary reason for this meeting was to discuss whether or not to hold the annual HOA meeting because of the Covid-19 issues – normally held the 1st Saturday in June. All Board members voted to have the meeting with certain guidelines in place. The meeting will be held at our picnic shelter (since the school is unavailable). The date will be June 13th at 9AM. Social distancing will be required. We will have a PA system for those wanting to remain in their golf carts. We will also try to obtain a wireless mike for attendees to state a question so everyone can hear. Mary Ann is going to look into live streaming the meeting on the GCL Facebook page.

2. Discussed the issue of dead trees near the fence on Goose Creek Blvd. Several attempts to get the camp ground management to remove the trees before property damage occurs have not received any response. We will now have our lawyer send a letter to camp ground management to hopefully get a positive response.

3. After several attempts we have also not received any response from the camp ground manage as to the replacement of the fence at the boat landing. We are proactively seeking quotes for replacing the fence.

4. Board members are studying possible resolutions for the standing rain water near the boat ramp and the cart parking area at the pool.

The meeting was adjourned at 5PM.
